

Xtract One Selected to Protect the Pacific National Exhibition this Summer in Vancouver

June 17, 2026

SmartGateway's Advanced Weapons Detection Aligns Global Event Security with Smooth Operations and Welcoming Guest Environments

TORONTO, June 17, 2026 (GLOBE NEWSWIRE) -- [Xtract One Technologies](#) (TSX: XTRA)(OTCQX: XTRAF)(FRA: 0PL) ("Xtract One" or the "Company") today announced that its [Xtract One SmartGateway](#) ("SmartGateway") has been selected to protect the Pacific National Exhibition (PNE) for the summer to support enhanced security operations for a large-scale fan festival event taking place in Vancouver coincident with other global events. The deployment reinforces growing demand for intelligent, high-throughput screening solutions capable of delivering world-class security and an optimized entry experience at major public and highly visible events.

As part of the deployment, Xtract One is securing entrances at the [PNE entrances and Amphitheatre](#), located on the grounds of the Pacific National Exhibition, which is serving as a central hub for fan related programming from early June through late July. The venue will host live entertainment, match-day viewing events, and fan-focused activations, drawing significant local and international attendance. In preparation for the festival, organizers prioritized a screening approach capable of strengthening safety without slowing attendee throughput across large crowds. To meet these requirements, the festival selected Xtract One to deploy its SmartGateway system, delivering touchless, effective screening that enhances operational performance at scale while maintaining an open and welcoming venue environment that allows guests to enjoy its range of game day offerings.

"Large-scale events and fan gatherings, such as global sporting events with global security implications, are raising expectations for how security is delivered. These environments require solutions that combine strong detection capabilities with speed and ease of entry, supporting the celebratory atmosphere venues work hard to create," said Peter Evans, CEO of Xtract One. "This deployment reflects broader adoption of intelligent, AI-driven screening platforms, demonstrating how experience-first security technology is becoming the operational standard, not the exception."

SmartGateway revolutionizes security by delivering reliable and accurate patron screening for large-capacity venues with high throughput. The AI-powered, concealed weapons detection system discreetly scans individuals for weapons and prohibited items upon entry without requiring the removal of personal belongings. By replacing intrusive metal detectors with intelligent, aesthetically adaptable technology, SmartGateway reduces time spent in security lines and allows patrons to safely, but quickly, enter the venue for their event, thereby helping venues maintain an inviting guest experience while improving safety and operational efficiency.

About Xtract One

[Xtract One Technologies](#) is a leading technology-driven provider of threat detection and security solutions leveraging AI to deliver seamless and secure experiences. The Company makes unobtrusive weapons and threat detection systems that are designed to assist facility operators in prioritizing- and delivering improved "Walk-right-In" experiences while enhancing safety. Xtract One's innovative portfolio of AI-powered Gateway solutions excels at allowing facilities to discreetly screen and identify weapons and other threats at points of entry and exit without disrupting the flow of traffic. With solutions built to serve the unique market needs for schools, hospitals, arenas, stadiums, manufacturing, distribution, and other customers, Xtract One is recognized as a market leader delivering the highest security in combination with the best individual experience. For more information, visit www.xtractone.com or connect on [Facebook](#), [X](#), and [LinkedIn](#).

About Threat Detection Systems

Xtract One solutions, when properly configured, deployed, and utilized, are designed to help enhance safety and reduce threats. Given the wide range of potential threats in today's world, no threat detection system is 100% effective. Xtract One solutions should be utilized as one element in a multilayered approach to physical security.

Forward Looking Statements

This news release contains forward-looking statements within the meaning of applicable securities laws. All statements that are not historical facts, including without limitation, statements regarding future estimates, plans, programs, forecasts, projections, objectives, assumptions, expectations or beliefs of future performance and customer contracts, are "forward-looking statements". Forward-looking statements can be identified by the use of words such as "plans", "expects" or "does not expect", "is expected", "estimates", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results, events or developments to be materially different from any future results, events or developments expressed or implied by such forward

looking statements. Such risks and uncertainties include, but are not limited to, the risks detailed from time to time in the continuous disclosure filings made by the Company with securities regulations. These factors should be considered carefully, and readers are cautioned not to place undue reliance on such forward-looking statements. Although the Company has attempted to identify important risk factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other risk factors that cause actions, events or results to differ from those anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in forward-looking statements. The Company has no obligation to update any forward looking statement, even if new information becomes available as a result of future events, new information or for any other reason except as required by law.
