

Xtract One Technologies Selected by Metro Toronto Convention Centre to Enhance Security for World-Class Events

August 27, 2026

16 Xtract One Gateway Systems to Protect Both Buildings of Canada's Leading Convention Facility Across More Than a Dozen Entry Points

TORONTO, Aug. 27, 2026 (GLOBE NEWSWIRE) -- [Xtract One Technologies](#) (TSX: XTRA)(OTCQX: XTRAF)(FRA: 0PL) ("Xtract One" or the "Company") today announced that the Metro Toronto Convention Centre ("MTCC") has selected [Xtract One Gateway](#) for deployment across both its North and South buildings in downtown Toronto. The deployment, a five-year contract, will see 16 Xtract One Gateway systems installed across a dozen or more entry points in two phases, reflecting growing interest in Xtract One Gateway from major convention and event facilities across North America.

The Metro Toronto Convention Centre is one of North America's most active and high-profile convention destinations. The facility features 442,000 square feet of exhibit space, 77 meeting rooms, multi-purpose ballrooms, and a state-of-the-art theatre for performing arts and corporate events. The scale and diversity of events hosted at the MTCC, from international trade shows to large-scale corporate conferences, requires security infrastructure that keeps entry moving without disrupting the experience that has made the facility a top choice for event planners worldwide.

"As a Toronto-based company, having the Metro Toronto Convention Centre select Xtract One carries real weight for us," said Peter Evans, CEO of Xtract One Technologies. "The MTCC hosts events that draw international audiences and demand a security program that performs at that level across every entry point, every event type, and every configuration. Sixteen systems across both buildings reflects the confidence they've placed in us, and we're committed to delivering a program that lives up to that trust."

"The safety and security of our visitors is a top priority at the MTCC. With events varying in size, audience and configuration, we needed a security program that is adaptable, effective and supports a seamless guest experience," said Ron Pellerine, Chief Operations Officer. "We're especially proud to partner with a Canadian company whose innovation is helping us strengthen security while showcasing Canadian technology and maintaining the welcoming experience our guests and clients expect."

Xtract One Gateway is designed for environments where individuals regularly carry laptops, backpacks, and high volumes of personal belongings as part of their daily routine. The MTCC evaluated a number of vendors through a rigorous RFP procurement process before selecting Xtract One Gateway, with the unique operational requirements of a convention facility. The system identifies and classifies specific threat objects while accurately distinguishing them from everyday items, without requiring individuals to stop, remove items, or submit to bag checks. Security staff receive specific alerts identifying what triggered and exactly where on the individual's body, making secondary screening faster and more precise. The system's portability allows it to be repositioned and reconfigured between events without requiring new installation or calibration.

About Metro Toronto Convention Centre

The Metro Toronto Convention Centre (MTCC) is Canada's leading convention and trade show facility in the heart of downtown Toronto. Since 1984, the MTCC has welcomed more than 70 million guests and hosted over 22,000 events, generating \$10 billion in economic impact for Ontario and Toronto. The MTCC is recognized worldwide for its exceptional service, ideal location, sustainability, innovation, and outstanding food and beverage. For more information, visit www.mtccc.com.

About Xtract One

[Xtract One Technologies](#) is a leading technology-driven provider of threat detection and security solutions leveraging AI to deliver seamless and secure experiences. The Company makes unobtrusive weapons and threat detection systems that are designed to assist facility operators in prioritizing- and delivering improved "Walk-right-In" experiences while enhancing safety. Xtract One's innovative portfolio of AI-powered Gateway solutions excels at allowing facilities to discreetly screen and identify weapons and other threats at points of entry and exit without disrupting the flow of traffic. With solutions built to serve the unique market needs for schools, hospitals, arenas, stadiums, manufacturing, distribution, and other customers, Xtract One is recognized as a market leader delivering the highest security in combination with the best individual experience. For more information, visit www.xtractone.com or connect on [Facebook](#), [X](#), and [LinkedIn](#).

About Threat Detection Systems

Xtract One solutions, when properly configured, deployed, and utilized, are designed to help enhance safety and reduce threats. Given the wide range of potential threats in today's world, no threat detection system is 100% effective. Xtract One solutions should be utilized as one element in a multilayered approach to physical security.

Forward Looking Statements

This news release contains forward-looking statements within the meaning of applicable securities laws. All statements that are not historical facts, including without limitation, statements regarding future estimates, plans, programs, forecasts, projections, objectives, assumptions, expectations or beliefs of future performance and customer contracts, are “forward-looking statements”. Forward-looking statements can be identified by the use of words such as “plans”, “expects” or “does not expect”, “is expected”, “estimates”, “intends”, “anticipates” or “does not anticipate”, or “believes”, or variations of such words and phrases or statements that certain actions, events or results “may”, “could”, “would”, “might” or “will” be taken, occur or be achieved. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results, events or developments to be materially different from any future results, events or developments expressed or implied by such forward looking statements. Such risks and uncertainties include, but are not limited to, the risks detailed from time to time in the continuous disclosure filings made by the Company with securities regulations. These factors should be considered carefully, and readers are cautioned not to place undue reliance on such forward-looking statements. Although the Company has attempted to identify important risk factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other risk factors that cause actions, events or results to differ from those anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in forward-looking statements. The Company has no obligation to update any forward looking statement, even if new information becomes available as a result of future events, new information or for any other reason except as required by law.
